

HIGHEST QUALITY - IMPRESSIVE STYLE - TIMELESS DESIGN

CBD is pleased to present its collection of luxury glass countertops marrying artfull elegance with advanced technical capability for both residential and commercial clientele.

We offer a wide selection of thicknesses, edge treatments, surface treatments, colors and shapes.

The glass countertops are easy to maintain, this material is non-porous, stain proof, hygienic and anti-bacterial. Glass countertops have a very tensile strength. These countertops are able to take tremendous amount of weight, allowing for an overhang. The glass countertops are heat, stain and mould resistant.

Glass kitchen/bath countertops, bar tops and reception desk tops will always enhance the entire area with its contemporary beauty, elegance and sophistication. Compared to other materials, glass provides, captures and reflects the light, giving it a unique quality to each countertop.

CBD offers a wide selection of thermoformed, fused and laminated glass in different thicknesses: 1/2", 5/8", 3/4", 1", 1 1/4", 1 1/2", 2" and more...
